1. CHANNEL PERFORMANCE & EFFICIENCY BREAKDOWN

Channel	Campaigns	Total Spend	Conversions	CTR (%)	Avg CPC	CAC (\$)	Efficiency
Instagram	357	\$633,951.12	56,874	2.98%	\$1.23	\$11.15	High
Google Ads	348	\$666,030.70	59,436	3.03%	\$1.27	\$11.21	High
TikTok	409	\$762,598.23	67,104	3.00%	\$1.25	\$11.36	High
Facebook	397	\$1,760,416.71	68,441	3.06%	\$2.85	\$25.72	Medium
Email Marketing	370	\$2,186,708.27	61,886	2.93%	\$3.96	\$35.33	High Cost
Unmapped Tags	99	\$169,749.25	17,709	3.25%	\$1.13	\$9.59	High

Key Takeaway: High-Efficiency Core Channels

Instagram, Google Ads, and TikTok form the core high-efficiency tier, delivering acquisitions at roughly ~\$11.20 CAC. Conversely, Facebook and legacy Email campaigns consume over 63% of overall budget while driving higher acquisition costs.

2. ACTIVE VS. INACTIVE CAMPAIGN DYNAMICS

A deeper evaluation into campaign statuses resolved a major anomaly in the data regarding Email marketing efficiency:

- **The Email Recovery Discovery:** While aggregate metrics show Email at an inefficient \$35.33 CAC, *currently active email campaigns perform exceptionally well at \$11.19 CAC* (\$429.6k spend across 236 campaigns). The historical average was heavily distorted by legacy inactive campaigns averaging \$74.75 CAC (\$1.75M spend).
- **Systemic Facebook Overhead:** Active Facebook campaigns (\$25.64 CAC) show virtually no improvement over inactive campaigns (\$25.80 CAC), proving an unaddressed structural cost ceiling on the platform.
- **Core Platform Consistency:** TikTok, Google Ads, and Instagram maintain tight acquisition costs between \$10.55 and \$11.96 CAC across both active and inactive cohorts.

3. CAMPAIGN DURATION ANALYSIS

Duration Flight	Campaigns	Total Spend	Conversions	Avg CPC	CAC (\$)
Short-term (< 7 Days)	442	\$1,806,316.82	74,107	\$2.74	\$24.37
Medium-term (7–14 Days)	521	\$1,970,418.25	83,795	\$2.57	\$23.51
Standard (15–30 Days)	999	\$2,360,813.94	170,057	\$1.56	\$13.88
Long-term (> 30 Days)	18	\$41,905.27	3,491	\$1.21	\$12.00

4. STRATEGIC RECOMMENDATIONS FOR BUDGET REALLOCATION

1. **Reallocate Capital to High-Performing Channels:** Shift acquisition capital directly toward Instagram, Google Ads, and TikTok, which reliably convert around \$11.20 CAC.
2. **Enforce Minimum 14-Day Flight Durations:** Eliminate short-duration campaigns (<14 days) to ensure network algorithms exit the learning phase, slashing CAC by ~50%.
3. **Cap Facebook Bidding & Audit Targets:** Implement strict CPC and target bid caps on Facebook to mitigate ongoing inefficiency.
4. **Scale Active Email Sequences:** Maintain and expand active email workflows (\$11.19 CAC) while keeping historical legacy campaigns archived.
